

Program

The 5th International Expert Symposium in Fukushima on Radiation and Health: Chernobyl+30, Fukushima+5: Lessons and Solutions for Fukushima's Thyroid Question

Venue: "Adatara" room, The Celecton Fukushima, Fukushima, Japan

September 26(Mon), 2016 09:00-19:00 (Registration opens from 08:30)

Time	Program
9:00	Opening Ceremony Welcome Address Yohei Sasakawa, Chairman, The Nippon Foundation Opening Remarks Shin-ichi Kikuchi, President, Fukushima Medical University Toshiyuki Hata, Vice Governor, Fukushima Prefecture
09:30	Session 1 Lessons from Chernobyl: an Examination of Radiation Risks, Based on International Consensus and Evidence Related to Thyroid Cancer, 30 Years after the Nuclear Accident
	Chairs Zhanat Carr, World Health Organization Vladimir Saenko, Nagasaki University
	Keynote 1 30 Years after Chernobyl - Overview of the Risks of Thyroid Cancer, Based upon the UNSCEAR Scientific Reports (2008-2012) Wolfgang Weiss, Federal Office for Radiation Protection (Germany)
	Keynote 2 Thirty Years Since the Accident in Chernobyl: A Contribution from Japan "Confirming the Increase of Childhood Thyroid Cancer" Shigenobu Nagataki, Nagasaki University
	Presenters Thyroid Cancer Risk in Ukraine Following the Chernobyl Accident (Ukrainian-American Cohort Thyroid Study). Mykola Tronko, Institute of Endocrinology and Metabolism (Ukraine) Clinical Aspect of Pediatric Thyroid Cancer in Belarus Following the Chernobyl Accident and Follow-up. Valentina Drozd, Belarussian Medical Academy of Post-Graduate Education (Belarus) Results of the Thyroid Cancer Epidemiological Survey in Russia, Following the Chernobyl Accident Viktor Ivanov, National Medical Research Radiological Centre (Russia)
	Q/A and Wrap-up
12:15	Lunch
13:30	Session 2a Thyroid Cancer: The Reality of Chernobyl
	Chairs Geraldine Thomas, Imperial College London (UK) Shunichi Yamashita, Nagasaki University
	Presenters Clinical Aspects of Thyroid Cancer in Belarus, Following the Chernobyl Accident Yuri Demidchik, Belarussian Medical Academy of Post-Graduate Education (Belarus) Assessment of Radiation Exposure and Ultrasound Screening as Factors Influencing Tumor Characteristics and Recurrence-free Survival in Children and Adolescents with Papillary Thyroid Carcinoma Pavel Rumiantsev, Endocrine Research Centre (Russia) Histopathological Studies of Thyroid Cancer in Ukraine, Following the Chernobyl Accident Tetiana Bogdanova, Institute of Endocrinology and Metabolism (Ukraine) Radiological Therapy Following Operations for Thyroid Cancer in Chernobyl Christoph Reiners, University of Würzburg (Germany)
	Q/A and Wrap-up
15:30	Coffee Break

16:00	Session 2b Thyroid Cancer: Questions for Fukushima
	Chairs Christopher Clement, International Commission on Radiological Protection Ohtsura Niwa, Radiation Effects Research Foundation
	Presenters Thyroid Cancer and Genomics Geraldine Thomas, Imperial College London (UK) Thyroid Cancer Incidence in Areas near to Nuclear Power Plant Region in Korea Hyeong Sik, Ahn, Korea University School of Medicine (Korea) Management of Papillary Thyroid Carcinoma in Japan Iwao Sugitani, Nippon Medical School Report of the Results of Thyroid Examination of Fukushima Health Management Survey Akira Ohtsuru, Fukushima Medical University Childhood and Adolescent Thyroid Cancer after the Fukushima Nuclear Power Plant Accident Shinichi Suzuki, Fukushima Medical University Challenges of "Thyroid Examination" of the Fukushima Health Management Survey Sanae Midorikawa, Fukushima Medical University
	Q/A and Wrap-up
19:00	End of session

September 27(Tue), 2016 08:30-14:30

Time	Program
08:30	Session 3 From Chernobyl to Fukushima
	Chairs John Boice, National Council on Radiation Protection and Measurements (US) Koichi Tanigawa, Fukushima Medical University
	Keynote From Chernobyl to Fukushima and Beyond-Radiation Protection, Doses, Risks and Perception John Boice, National Council on Radiation Protection and Measurements (US) Reassessing the Ability to Attribute of Paediatric Thyroid Cancer to Radiation Exposure: The FHMS Experience Abel González, Argentine Nuclear Regulatory Commission (Argentine)
	Presenters Preventing Thyroid Cancer by the Use of Iodine Thyroid Blocking:WHO Perspective Zhanat Carr, World Health Organization International Estimates of the Radiological Consequences of the Fukushima-Dai'ichi Accident: the IAEA Report Abel González, Argentine Nuclear Regulatory Commission (Argentine) UNSCEAR Assessments Related to the 2011 Fukushima-Daiichi Nuclear Power Station Accident Malcolm Crick, United Nations Scientific Committee on the Effects of Atomic Radiation From Chernobyl to Fukushima: What ICRP has Learned with Japanese Stakeholders? Jacques Lochard, International Commission on Radiological Protection Research on Thyroid Cancer - from Chernobyl to Fukushima Ausrele Kesminiene, International Agency for Research on Cancer
	Q/A and Wrap-up
12:00	Coffee Break
12:30	Table Discussion
	Chairs Geraldine Thomas, Imperial College London (UK) Shigenobu Nagataki, Nagasaki University Theme: Radiation and Thyroid Cancer Risks: Proposal for Fukushima
13:20	Closing Words Koichi Tanigawa, Vice President, Fukushima Medical University
13:30	Press Conference
